23rd May 2023

Dear Parents and Carers,

We are excited to announce the launch of our new STEM and Technology Club at Coleambally Central School. Our goal is to provide students with an opportunity to explore the fascinating world of science, technology, engineering, and mathematics in a fun and engaging way.

The STEM and Technology Club is open to students in Kindergarten to Year 12. Depending on the number of interested students, different sessions or days may be introduced. The club will meet on Wednesdays during lunchtime, and students will have the opportunity to participate in a variety of hands-on projects and activities that promote critical thinking and problem-solving skills. Our first STEM and Technology Club session will be during Week 4.

Students will also have access to cutting-edge technology, such as 3D printers and robotics kits. The club is designed to promote teamwork, collaboration and creativity. We are confident that students will enjoy the experience. We hope that you will encourage your child to participate in this enriching club.

Kind regards,

Samantha Phillips
